The Resources of Arizona.

By Hop. Pat. Hamilton. HISTORICAL.

The region now embraced within the ter- still remains. through the country of the Moquis, and, rate. One of the first-discovered portions after many hardships and privations, joined of North America, so long neglected and untheir countrymen at Culiacan, in Sinalog, known, is at least beginning to yield up votes. They gave glowing accounts of the country those treasures which for ages have remained through which they passed, and their de- hidden in its mountain fastnesses, guarded scription of the "Seven Cities of Cibola," the Moquis towns, excited the spirit of ad- dawned for Arizona-an era of peace, pro venture and cupidity among the Spanish gress, and prosperity. The demon of isoconquerors, and fired the zealogs arder of lation and the curse of savage dominion, the missionaries. Padre Marco de Niza, which so long brooded over the land, have under the patronage of the Viceroy Mendoza, been swept aside by the advancing tide of set out from Culiacan in 1539, accompanied civilization, and Arizona's future is bright fabulous "Seven Cities." They passed prosperous state. through the Papagueria and the country of the Pimas, by the velley of the Santa Cruz and into the country of the friendly Yavapais, and at last came in sight of the goal of their arduous quest. Father de Niza sent his companion ahead, with some Indians, who had accompanied them from the Gila. The Moquis massacred the whole party. Father de Niza did not enter the city. He set up the cross, named the country the New Kingdom of San Francisco, and re-

excited by the news which the good father been doing the grand to the editor of that on drugs. The Convention opened with 200 brought on his return. The thirst fer gold paper during the latter's stay in Proscott, delegates present. John Thompson, of the fluence of the cross, bore down all oppo- will have to give up his hope for support in Chicago National Bank, spoke on the tariff sition. The Viceroy, Mendoza, projected that quarter. reached the new of the "Seven Cities," Intheir imagination had pictured, they found um mer. a poor and insignmeent village. The province was composed of seven villages, the homes being small and built in teraces, as they are at the present day. The inhabitants were intelligend and industrious. They raised good crops of corn, beans, and pumpplorations before any permanent settlement perous condition within what is now the ter- favor of Butler. labors of the zealous fathers were shown in the peaceful and industrious Indian colonies which sprung around their missions.

prived of the protection of the vice-regal and constituent. government, and constantly harassed by the Apaches, they languished and declined, until they were finally suppressed under a decree of the Mexican government in 1827. ceded to the United States. At that time Rio Salado, and the Morais towns in the Subsequent to the tracy of Guadalupe all means. Hidalgo, the ferritory I amed a part of New

to "Arizona." The word Arizona is said to be derived from two Pima words: "Ari," a maiden, and "Zion," a valley, or country. It has reference to the traditionary maiden queen who once ruled over all the branches of the Pima races. Before the name was conferred on the whole Territory, it was borne by a mountain adjacent to the cele (wenty-seventh of December, 1863, and two for its securitles. days later, at Navajo Springs, the national colors were given to the breeze, and the Territorial Government formally inaugurated. The seat of government was estab- urday, lished at Fort Whipple, in Chino Valley,

ritory of Arizona was first penetrated by The history of Arizona from the estab-Europeans nearly three hundred and fifty lishment of a Territorial organization up to years ago. A quarter of a century before the year 1874 has been a series of fierce and the founding of San Augustine, and long be- bloody struggles with the savage Apaches, fore Puritan or Cavalier had established and of slow, but steady growth. The inthemselves at Plymouth Rock or Jamestown, trepedity, daring, and self-sacrifice of the Spanish adventurers had explored the wilds early pioneers, who won this rich domain of Arizona and New Mexico. Alvar Nunez foot by foot, from its savage occupants, yet de Vaca, one of the followers of Pamphilo remains to be written, and will be one of de Narveaz, in his disastrous expedition to the bloodiest pages in the history of our the coast of Florida, in 1858, being left by frontier settlements. The hostile tribes his commander, with four companions, on were conquered and placed on reservations the desolate shore, resolved to penetrate the by General Crook in 1874, and since that great unknown wilderness to the westward time the Territory has made rapid progress and join their count vmen in Mexico. With in population, wealth, and general developout compass or provisions, they struck across | ment. With the opening of a transcontithe continent, discovered and crossed the nental railroad across the southern portion Mississippi two years before De Soto stood of the Territory, and the discovery of im upon its banks and found a burial place be- mense veins of silver ore adjacent thereto, neath its turbid waters. They traversed Arizona has attracted the attention of the the great plains of the West, entered New whole country, and capital and emigration Mexico, visited the pueblo towns, passed have flowed in upon her at an unexampled
